

Sagar Hospitals: A Legacy of Quality and Commitment to Healthcare

In the bustling city of Bengaluru, where tradition meets modernity, stands a beacon of hope and healing—Sagar Hospitals. The story of Sagar Hospitals is one of passion, perseverance, and an unwavering commitment to excellence. This institution, founded on the principles of comprehensive care and advanced medical treatment, has grown into one of India's most esteemed healthcare providers.

The inception of Sagar Hospitals traces back to the vision of Dr. Chandramma Sagar, one of the pioneers whose illustrious career and relentless spirit laid the foundation for what would become a legacy in healthcare. Dr. Chandramma Sagar's accomplishments were not just milestones but harbingers of the extraordinary path that lay ahead for Sagar Hospitals.

The nurturing hands of Dr. D. Hemachandra Sagar and Dr. D. Premachandra Sagar further cultivated this seedling into a towering tree. In 2002, the first corporate branch of Sagar Hospitals in Jayanagar, Bengaluru, opened its doors. This facility, with 250 beds, quickly became synonymous with quality medical care and compassionate service. It wasn't merely a hospital; it was a sanctuary where patients found solace and healing.

In 2009, the expansion continued with the establishment of Sagar Hospital in Banashankari. This 415-bed multi-specialty tertiary care hospital, equipped with state-of-the-art diagnostic centres and 44 specialty departments, epitomises the group's dedication to delivering superior healthcare solutions. Here, the convergence of advanced technology and human touch crafts a unique patient experience that is both effective and empathetic.

In the words of Dr. Premachandra Sagar, Vice Chairman, Sagar Group, "We envisioned a place where every patient receives the highest quality of care, where every practitioner strives for excellence, and where innovation in medicine is an everyday pursuit".

The ethos of Sagar Hospitals is rooted in an unwavering pursuit of quality. The hospitals are not just treatment centres; they are institutions of learning and innovation. The establishment of the Dr. Chandramma Dayananda Sagar Institute of Medical Education and Research (CDSIMER) in 2019 is a testament to this commitment. Located in the Greater Bengaluru Area and affiliated with Dayananda Sagar University, CDSIMER is a sanctuary of knowledge, where future doctors are nurtured and trained to become the torchbearers of medical quality.

With a provision of modern 1300 bed facility, CDSIMER is poised to revolutionise medical education and patient care. This visionary project embodies the group's dedication to fostering medical talent and providing top-notch healthcare services. Sagar Hospitals has always aspired to be at the forefront of medical advancements, particularly ex-

Sagar hospitals

I am proud to say that at Sagar Hospitals, we don't just treat diseases; we care for the human spirit. Our commitment to excellence goes beyond medical treatment to embody a holistic approach to healthcare

- Ishiqa Multani, President, Sagar Group of Hospitals

celling in cardiac sciences and neurosciences. Renowned for its exemplary cardiac department, Sagar Hospitals has advanced procedures such as minimally invasive heart surgeries and complex valve replacements. The hospital's cardiac unit is equipped with state-of-the-art technology and led by a team of experienced cardiologists, ensuring the remarkable results in cardiac care.

In the realm of neurosciences, Sagar Hospitals has set new benchmarks with its advanced treatments and interventions. The neuroscience department boasts specialised programs for stroke management, neurosurgical procedures, and comprehensive epilepsy care. With a multidisciplinary team of neurologists, neurosurgeons, and rehabilitation specialists, Sagar Hospitals has become one of the leading institutions for treating complex neurological disorders, enhancing patient outcomes and quality of life.

Sagar Hospitals' reputation extends far beyond the borders of India. The institution has treated over 2.4 million patients, including more than 100,000 international patients from over 35 countries. This global trust is a reflection of the hospital's unwavering commitment and its ability to provide modern healthcare.

The accolades bestowed upon Sagar Hospitals stand as a testament to its unparalleled service and quality. Sagar Hospital has also garnered Certificate of Excellence in the category of Excellence in Department of Neurology at Times Health Excellence, 2024, an event conducted by OMS (a Division of Times Internet Limited), based on research by Avance Insights Pvt. Ltd. These accolades affirm the hospital's esteemed position as one of the leaders in the healthcare sector.

The soul of Sagar Hospitals lies in its compassionate care. The dedicated team of board-certified clinicians, renowned specialists, and compassionate nurses ensures that every patient receives personalised and empathetic care. The hospital's approach integrates traditional medical practices with the latest technological advancements, providing a holistic healing experience. As Sagar Hospitals continues to grow, its vision remains steadfast: to serve society with cost-effective, quality healthcare.

Sagar Hospitals stands as a paragon of compassionate care. Its journey, from humble beginnings to becoming a healthcare giant, is a testament to the power of visionary leadership and unwavering dedication. As the institution continues to innovate and expand, it remains a beacon of hope and healing, committed to providing exceptional healthcare services to every patient who walks through its doors.
